

Why do carnivores need plants to survive?

Developing my Character

I can understand that integrity is doing the right thing when nobody is watching and I can lead by example.

Being a Scientist

Investigation

Investigation - I will be able to observe and spot patterns in different types of animals.

Living things - understand that categories of plants and animals have similar needs if they are to grow, develop and survive.

Living Things

Our World

Our world - understand how different animals obtain their food.

Developing as a Learner

I can work in a group, listening well to others and sharing my ideas and views with support.

Outcome – I will produce a poster and present it to my classmates.
